

Dear colleagues,

Welcome to "Munich Facial Plastic Surgery"!

Nose, ear, and aging face are the most fascinating and hottest topics in facial plastic surgery. To master these fields, every facial plastic surgeon needs to seek a profound education consisting of both theoretical knowledge and practical training.

This meeting offers you a nearly complete description of rhinoplasty, otoplasty and facial rejuvenation surgery within three days, including a Hands-on course with fresh cadavers, under guidance of the experts. With live surgery, you may observe the operations through video transmission in the lecture hall.

Besides the lecturers of Munich University, I am proud and happy to present Dr. Hossam Foda and Dr. Stephen Perkins, two extremely renowned and respected international teachers and experts in these subjects.

Welcome to Munich!

Prof. Dr. Alexander Berghaus

Course director
Head, Dept. of ORL-HNS
Munich University Clinic
