

"The purpose of these workshops is to provide rare and unforgettable learning opportunities where the participants dissect human cadavers for themselves and the benefit of the group. The process of doing so is profound, as the participants will experience their human anatomy in the deepest possible ways."

Dr Murtaza Najmi, Activity Director, Dubai,UAE

WORKSHOPS

In it's 10th edition , the middle east leading cadaver dissection workshop gathers international and regional medical practitioners together to share their knowledge and expertise with you.

The Hands on Cadaver Dissection Workshops deliver a programme of exceptional quality in Continuing Medical Education (CME) to professionals within the region.

Kindly read below for more details about our workshops.
